## COMMODITY UPDATE

The COMMODITY UPDATE reports, issued for each commodity once a year, contain information on prices, imports, exports and production by commodity. The information is taken from the network of GLOBEFISH correspondents and the GLOBEFISH European Price Report, INFOFISH Trade News, FAO FISHDAB, EUROSTAT and others.

The issues are scheduled approximately as follows:

FISHMEAL-FISHOIL - *Spring*  
BIVALVES - *Spring*  
SALMON - *Spring*  
SHRIMP - *Summer*  
TUNA - *Summer*

CRAB - *Autumn*  
LOBSTER - *Autumn*  
CEPHALOPODS - *Winter*  
GROUND FISH - *Winter*  
SMALL PELAGICS - *Winter*

## Crab Market Report - October 2006

### Stronger live crab prices for 2006

Crab imports in European markets are showing mixed trends this year with higher volumes in the Spanish market but lower imports in both France and Italy compared to the corresponding period in 2005. Trends are, however, consistent in relation to unit import values with increases in all three markets this year for live crab imports. These trends point to higher live crab prices in Europe during 2006. The unit value trend is less clear for frozen crab imports with increases in both Spain and Italy

but a decline in France.

### Imports of Live, Chilled & Frozen Crab January - June (tonnes)

	2005	2006	%
Spain	5 500	5 700	+ 4
France	4 400	4 100	- 7
Italy	1 300	1 100	- 15

*Globefish / national trade statistics*

### Negative trend in French imports continues

Following a 17% increase in 2004, French imports of live, chilled and frozen crab declined by 13% last year to 11 400 tonnes. The negative trend has continued into 2006 with volumes down 8% to just over 4 000 tonnes for the first half of the year. As in 2005, this year's decline is due to a drop in imports of live and chilled product, this category falling by 16% to almost 2 700 tonnes. In contrast, French imports of frozen crab products continue their upward trend with volumes up this year by 13% following an 11% increase for 2005 as a whole.

The decline in French live and chilled crab imports this year is largely the result of a fall in supplies from the two leading suppliers, the UK and Ireland. Sales from both countries, which relate mainly to brown crab (*Cancer pagurus*) are essentially in live form although there are also sales of chilled vacuum packed product. Imports from the UK fell by 12% to just under 1 400 tonnes while purchases from Ireland were down almost 20% to 1 200 tonnes for the first half compared to the same period in 2005. The relative scarcity of product from both countries was accompanied by higher average unit prices for the category, +7% to €3.28/kg.

### French Live & Chilled Crab Imports (tonnes)

	2004	2005	Jan-Jun 2005	Jan-Jun 2006	%
UK	5 200	4 500	1 600	1 400	- 12
Ireland	4 300	2 900	1 500	1 200	- 20
Others	500	400	100	100	-
<b>Total</b>	<b>10 000</b>	<b>7 800</b>	<b>3 200</b>	<b>2 700</b>	<b>- 16</b>

### UK consolidates key position in the Spanish live crab market

In contrast, sales of crab products to Spain are positive this year with imports of live, chilled and frozen up 4% to 5 700 tonnes for the January-June period. Live crab account for the greater part of total volumes and this category is up 6% to 3 700 tonnes. Frozen crab imports are up marginally on the first half of 2005 at just over 2 000 tonnes.

This year's increase in live sales was based on an increase from the dominant supplier, the UK, as well as on steady volumes from France. The UK, which accounts for over two thirds of Spanish live crab imports, registered a 4% increase for the six month period to almost 2 600 tonnes.

### Spanish Live Crab Imports\* January – June (tonnes)

	2005	2006	%
UK	2 500	2 600	+ 4
France	300	300	-
Others	700	800	+ 14
<b>Total</b>	<b>3 500</b>	<b>3 700</b>	<b>+ 6</b>

*\* includes some chilled crab products also*

As in France, Spanish import unit values for live and chilled crab are higher this year, +4% to €2.88/kg.

### Italian live and frozen crab imports weaker

Although annual Italian crab imports are significantly lower than those of either Spain or France, import trends there support the view that live crab prices are currently on an upward trend compared to 2005. Unit values for the first half of the year are up 13%, to €4.24/kg, compared to the first six months of 2005. In line with this increase, the value of Italian live imports increased this year, +8% to €2.6 million, despite a fall in volume imports. The volume decline is shared by the two leading suppliers, France and the UK.

### Italian Live Crab Imports\* January – June (tonnes)

	2005	2006	%
France	410	400	- 2
UK	210	180	- 14
Others	20	40	+ 100
<b>Total</b>	<b>640</b>	<b>620</b>	<b>- 3</b>

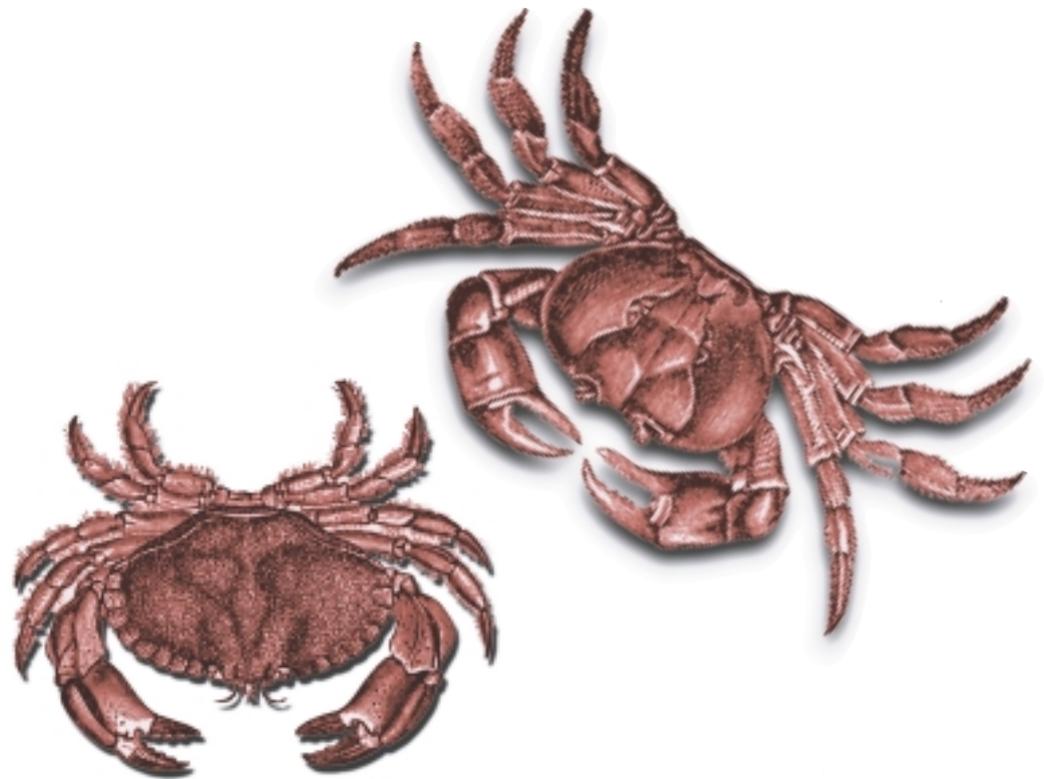

*\* includes some chilled crab products*

Italian frozen crab imports are also down this year, - 30% to 450 tonnes.

### Positive outlook for live brown crab prices

Industry feedback in the French market suggests that current live brown crab prices continue to be higher than levels at the same period last year. This indication points to a positive price outlook, at least in the brown crab segment, in the approach to the seasonally strong end of year demand period.
